### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward Timmer on Monday, October 20, 2003.

The application has been amended as follows:

- In claims 9 and 10: delete "the device of claim 8" and insert "the device of claim 1".

### *Allowable Subject Matter*

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach, disclose, or suggest, either alone or in obvious combination a device for moving a fluid, comprising a movable member having a first piezoelectric actuator element coupled thereto to drive said movable member to move said fluid and a second piezoelectric sensing element coupled thereto to provide feedback signals to a controller that determines from said feedback signals at least one of viscosity, density, and temperature of said fluid and controls said first piezoelectric actuator element in response to at least one of the determined viscosity, density, and temperature of said fluid. Therefore, the limitations contained on claims 1-7, 9-15 and 17 are considered to be in condition of allowance. With regards to claims 18-20, the prior art of record fails to teach, disclose, or suggest, either alone or in obvious combination a device for moving a fluid, comprising a movable member having a first piezoelectric actuator element

coupled thereto to drive said movable member to move said fluid and a second piezoelectric sensing element coupled thereto and having a thermal expansion coefficient different from that of said first piezoelectric actuator element to provide temperature dependent feedback signals to a controller that determines from said feedback signals a temperature of said fluid, said controller controlling said first piezoelectric actuator element in response to the determined temperature of said fluid.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
